- **La struttura e il tono tra i fondi di spessore 6mm e 8,8mm potrebbero presentare differenze.**

The structure and shade of the tiles with 6 mm and 8.8 mm thickness could show differences.

- **Si consiglia fortemente di pulire bene la superficie delle piastrelle strutturate immediatamente dopo aver fuggato il pavimento. Questa operazione eviterà al materiale usato per la fuga di solidificarsi all'interno delle cavità presenti nella superficie della piastrella.**

We strongly recommended you thoroughly clean the surface of textured floor tiles immediately after filling the joints. This will prevent the filler solidifying in the cavities found in the tiles' surface.

- **Decor con vetro e graniglie. Le decorazioni mediante l'applicazione dei vetri e delle graniglie vetrose sulle piastrelle ceramiche possono presentare delle irregolarità nella distribuzione di dette graniglie, questo non pregiudica l'effetto estetico del prodotto, ma anzi ne esalta le caratteristiche.**

Decors with glass and glass-grit. The decors produced by the application of glass and glass grit on ceramic tiles may have an irregular distribution when utilising the glass grit. This technique does not compromise the aesthetic effect of the decor and moreover it does enhance its technical features.

For a perfect result, we recommend you use wedges during laying.
