**10 LASTRE/SLABS**

**120x120 6mm/12mm**

Espositore contenente 10 lastre 120x120 sp  
6 mm/12mm

estraibili e girevoli. Senza pannello retrostante.

Exhibitor contains 10 slabs 120x120

sp 6 mm/12mm

extractable and revolving slabs.

Without wood Panels

Se si vuole esporre il 6mm bisogna utilizzare le viti nel sacchetto (cerchiato in rosso) e non quelle già montate sulle manine che tengono ferme le piastrelle.

If you want to show the 6mm you have to use the screws in the bag (circled in red) and not the ones already installed on the small handles that hold the tiles in place.

## ESPOSITORE A CUNEO

per esporre lastre spessore 6mm  
formato 40x280 cm.  
Lastre non comprese.  
le lastre vanno ordinate con la nota  
del taglio a 40 x280 cm.

## WEDGE

for displaying slabs thickness 6mm  
size 40x280 cm.  
Sheets not included. Sheets should be ordered  
with a note specifying the cut at 40 x 280 cm."

Vi chiedo la cortesia di indicare sempre la posizione dei cunei se **dx** e **sx**  
in quanto in quelli dove va la predisposizione elettrica è predisposto in alto il cavo di uscita nell'ultimo pannello per la connessione  
elettrica.

I pannelli hanno la possibilità di essere montati fissandoli a muro dai nostri clienti.

I kindly ask you to always specify the position of the wedges as right (dx) and left (sx), especially in those where the electrical  
setup is provided. In these cases,  
the output cable is positioned at the top in the last panel for electrical connection. The panels can be mounted on the wall by our  
customers.

- Se richiesto con impianto elettrico , ogni cuneo arriva al cliente già con led, alimentatore e ponte per collegamento in serie.
- Per i tempi di consegna considerate 20 giorni lavorativi circa
- Di seguito i codici per l'ordine del singolo cuneo

**F99085 CUNEO PER LASTRE PARETE 75€**

Pannello cuneo truciolare grezzo formato 40x280 cm, predisposto per fissaggio a muro, atto a esporre 1 lastra tagliata di misura 40x280 cm, spessore 6 mm.

Sistema di fissaggio lastra sulla pannelolo truciolare tramite colla e silicone a carico del cliente.

Sbordatura lastra circa 3cm.

**F99086 CUNEO PER LASTRE PARTE CON LED + TRASFORMATORE 210€**

Pannello cuneo truciolare grezzo formato 40x280 cm con led + trasformatore, predisposto per fissaggio a muro, atto a esporre 1 lastra tagliata di misura 40x280 cm, spessore 6 mm.

Sistema di fissaggio lastra sulla pannelolo truciolare tramite colla e silicone a carico del cliente.

Sbordatura lastra circa 3cm.

Indicare in fase di ordine l'attacco del filo per l'uscita della luce , se in alto o in basso e se dx o sx.

## RIDUCE L'INQUINAMENTO ATMOSFERICO

REDUCTION OF ATMOSPHERIC POLLUTION.  
RÉDUCTION DE LA POLLUTION ATMOSPHÉRIQUE.  
REDUZIERTE UMWELTVERSCHMUTZUNG

UNI 11484

ATTESTED BY THE UNIVERSITY OF TURIN  
DEPARTEMENT OF CHEMISTRY

**20,7% di NOx**

CONVERTS VOLATILE POLLUTANTS INTO HARMLESS SUBSTANCES.

The anti-pollution properties of **ADVANCE®** stoneware also improve the quality of the air we breathe. Industrial production, the use of air conditioning systems and vehicles emit pollutants into the atmosphere. **ADVANCE®** used outdoors on the façades of buildings and apartment blocks, **reduces NOx (nitrogen oxide) molecules by 20.7%** (as attested by the University of Turin) in just three hours, considerably improving air quality thanks to the photocatalytic action activated by natural light. Each outdoor solution designed using **ADVANCE®** contributes towards **improving the environment around us.**

The technology is not only safe for our health, but it is also a sustainable choice that takes care of the environment thanks to the single firing at a very high temperature, and because no further treatments are required and it has no further impact on the environment.

CONVERTE LE SOSTANZE INQUINANTI VOLATILI IN SOSTANZE INNOCUE.

Le proprietà antinquinanti del gres **ADVANCE®** migliorano anche la qualità dell'aria che respiriamo. La produzione industriale, l'utilizzo di impianti di climatizzazione e dei mezzi di trasporto, emettono nell'aria sostanze inquinanti.

**ADVANCE®** applicata in esterno, nelle pavimentazioni Outdoor, sulle facciate di abitazioni e palazzi, **riesce a diminuire le molecole di NOx (Ossidi di Azoto) del 20,7%** (come attestato dall'Università di Torino) in sole tre ore, permettendo di migliorare notevolmente la qualità dell'aria grazie all'azione fotocatalitica che si attiva alla luce naturale.

Ogni soluzione outdoor progettata con **ADVANCE®** **contribuisce a migliorare l'ambiente che ci circonda.** Una tecnologia sicura per la nostra salute e una scelta sostenibile e attenta all'ambiente, in quanto realizzata in un'unica cottura ad altissima temperatura, senza perciò la necessità di ulteriori trattamenti e relativi impatti sull'ambiente.

TRANSFORME LES POLLUANTS VOLATILS EN SUBSTANCES INOFFENSIVES.

Les propriétés antipollution du grès **ADVANCE®** améliorent également la qualité de l'air que nous respirons. La production industrielle, l'usage de systèmes de climatisation et l'utilisation des moyens de transport émettent des polluants atmosphériques. La technologie **ADVANCE®**, appliquée sur les façades extérieures des habitations et des bâtiments, permet de **réduire la concentration de molécules de NOx (oxydes d'azote) de 20,7%** (comme l'a confirmé l'Université de Turin) en seulement trois heures, ce qui permet d'améliorer de façon considérable la qualité de l'air grâce à l'action photocatalytique qui s'active à la lumière naturelle.

Les espaces extérieurs conçus avec **ADVANCE®** permettent **d'améliorer l'environnement qui nous entoure.** En plus d'être sûre pour notre santé, la technologie représente également un choix durable et respectueux de l'environnement étant donné qu'elle est réalisée lors d'une cuisson unique à très haute température et qu'elle ne nécessite pas de traitements ultérieurs : elle n'engendre donc pas d'impacts supplémentaires sur l'environnement.

FLÜCHTIGE SCHADSTOFFE WERDEN IN UNBEDENKLICHE STOFFE UMGEWANDELT.

Die schadstoffmindernden Eigenschaften des Feinsteinzeugs **ADVANCE®** verbessern auch die Qualität unserer Atemluft. Die industrielle Produktion, der Einsatz von Klimaanlage und die Transportmittel tragen zum Ausstoß von Schadstoffen in die Luft bei.

Durch die Verwendung von **ADVANCE®** in Außenbereichen, an den Fassaden von Wohnungen und Gebäuden, **können die NOx-Moleküle (Stickstoffoxid) in nur drei Stunden um 20,7% reduziert werden** (laut Bescheinigung der Universität Turin). Durch die von natürlichem Licht aktivierte photocatalytische Wirkung kann die Qualität der Luft so beachtlich verbessert werden. Alle mit **ADVANCE®** realisierten Outdoor-Lösungen **tragen zu einer Verbesserung unserer Umwelt bei.** Diese Technologie ist nicht nur sicher für unsere Gesundheit, sondern auch eine nachhaltige und umweltfreundliche Entscheidung, da sie einen einzigen Brennvorgang bei extrem hohen Temperaturen vorsieht, ohne Notwendigkeit nachfolgender Behandlungen und damit ohne weitere Umweltauswirkungen.

## COMBATTE LO SPORCO

COMBATS DIRT.  
COMBAT LA SALETÉ.  
BEKÄMPFT SCHMUTZ.

### RIDUCE LA NECESSITÀ DI DETERGENTI CHIMICI.

Lo sporco si disgrega sulle superfici ceramiche ADVANCE® e ciò permette di mantenere puliti i pavimenti e i rivestimenti tramite il solo utilizzo di acqua e sapone neutro.

Per i pavimenti esterni lo scorrere dell'acqua piovana è sufficiente per garantirne la pulizia.

### REDUCES THE NEED TO USE CHEMICAL DETERGENTS.

Dirt disintegrates on the surface of ADVANCE® tiles, floors and walls can be kept clean by just washing with a neutral soap and water. For outdoor floors, the flow of rainwater is enough to guarantee cleanliness.

### RÉDUIT LE RECOURS AUX DÉTERGENTS CHIMIQUES.

La saleté se décompose sur les surfaces en céramique ADVANCE®, ce qui permet de conserver un sol et des murs propres en les lavant uniquement à l'eau et au savon doux. Pour les sols extérieurs, l'écoulement de l'eau de pluie suffit à garantir une propreté optimale.

### REDUZIERT DEN EINSATZ CHEMISCHER REINIGUNGSMITTEL.

Der Schmutz zersetzt sich auf den Keramikoberflächen von ADVANCE®. So können Bodenbeläge und Wandverkleidungen einfach mit Wasser und einem neutralen Reinigungsmittel sauber gehalten werden. Bei Bodenbelägen im Außenbereich garantiert bereits das Abfließen von Regenwasser eine ausreichende Reinigung.

5

## COMBATTE I CATTIVI ODORI

MITIGATES BAD ODOURS.  
RÉDUIT LES MAUVAISES ODEURS.  
HEMPT ÜBLE GERÜCHE.

### TRASFORMA LE MOLECOLE ORGANICHE RIDUCENDO I CATTIVI ODORI.

Come per gli NOx, le molecole fonti di cattivi odori si decompongono non appena entrano in contatto con la superficie, attenuandone così l'effetto odorifero.

### REDUCES BAD ODOURS BY CONVERTING THE ORGANIC MOLECULES.

Furthermore, as for NOx molecules, the molecules that cause bad odours decompose as soon as they come into contact with the surface, thus mitigating any malodorous effect.

### TRANSFORME LES COMPOSÉS ORGANIQUES ET RÉDUIT LES MAUVAISES ODEURS.

Comme pour les NOx, les composés à l'origine des mauvaises odeurs se décomposent dès qu'ils entrent en contact avec la surface, réduisant ainsi les mauvaises odeurs.

### VERWANDELT ORGANISCHE MOLEKÜLE UND REDUZIERT SO ÜBLE GERÜCHE.

Ebenso wie die NOx-Moleküle zersetzen sich auch die für üble Gerüche verantwortlichen Moleküle, sobald sie mit der Oberfläche in Kontakt kommen und hemmen somit die Geruchsbildung.
